## 1. CORPORATE INFORMATION AND NATURE OF OPERATIONS

Sultan Minerals Inc., incorporated in British Columbia, is a public company listed on the TSX Venture Exchange ("TSX-V") and trades under the symbol SUL. The address of the Company's corporate office and its principal place of business is 1066 West Hastings Street, Suite 2000, Vancouver, British Columbia, Canada.

The Company is in the exploration stage and its principal business activity is the exploration and evaluation of mineral properties in Canada. The Company is in the process of exploring and evaluating its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

The amounts shown as mineral properties and related capitalized exploration costs represent costs net of recoveries to date, less amounts written off, and do not necessarily represent present or future values. Recoverability of the amounts shown for mineral properties is dependent upon the discovery of economically recoverable mineral reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain financing necessary to complete the exploration and development of its mineral property interests, and on future profitable production or proceeds from the disposition of the mineral property interests.

## 2. BASIS OF PREPARATION

### a) Statement of compliance

These condensed interim financial statements are prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* under International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board. These condensed interim financial statements follow the same accounting policies and methods of application as the Company's most recent annual financial statements, with the exception to the changes in accounting policies as described in Note 3. These condensed interim financial statements do not contain all the information required for full annual financial statements. Accordingly, these condensed interim financial statements should be read in conjunction with our most recent annual financial statements, which were prepared in accordance with IFRS as issued by the IASB.

The condensed interim financial statements were authorized for issuance by the Board of Directors on August 28, 2013.

### b) Going Concern

These interim financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period of time. The Company has incurred losses since its inception and had an accumulated deficit of \$18,095,336 at June 30, 2013 which has been funded primarily by issuance of shares. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future. The Company has been successful in the past in raising funds for operations by issuing shares but there is no assurance that it will be able to continue to do so in the future. These factors may cast significant doubt on the use of the going concern basis of accounting.

## 3. ADOPTION OF NEW ACCOUNTING POLICIES

Certain new standards, interpretations and amendments to existing standards were issued by the IASB or the International Financial Reporting Interpretations Committee ("IFRIC") that are mandatory for accounting periods beginning on January 1, 2013, which were adopted by the Company. There was no significant impact from the adoption of these new standards on the Company's financial statements.

New mandatory accounting standards effective January 1, 2013:

**IFRS 10 Consolidated Financial Statements** - IFRS 10 requires an entity to consolidate an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Under existing IFRS, consolidation is required when an entity has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. IFRS 10 replaces SIC-12 *Consolidation - Special Purpose Entities* and parts of IAS 27 *Consolidated and Separate Financial Statements*.

**IFRS 11 Joint Arrangements** - IFRS 11 requires a venturer to classify its interest in a joint arrangement as a joint venture or joint operation. Joint ventures will be accounted for using the equity method of accounting whereas for a joint operation the venturer will recognize its share of the assets, liabilities, revenue and expenses of the joint operation. Under existing IFRS, entities have the choice to proportionately consolidate or equity account for interests in joint ventures. IFRS 11 supersedes IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities - Non-monetary Contributions by Venturers*.

**IFRS 12 Disclosure of Interests in Other Entities** - IFRS 12 establishes disclosure requirements for interests in other entities, such as joint arrangements, associates, special purpose vehicles and off balance sheet vehicles. The standard carries forward existing disclosures and also introduces significant additional disclosure requirements that address the nature of, and risks associated with, an entity's interests in other entities.

**IFRS 13 Fair Value Measurement** - IFRS 13 is a comprehensive standard for fair value measurement and disclosure requirements for use across all IFRS standards. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. It also establishes disclosures about fair value measurement. Under existing IFRS, guidance on measuring and disclosing fair value is dispersed among the specific standards requiring fair value measurements and in many cases does not reflect a clear measurement basis or consistent disclosures.

**IAS 1 Presentation of Financial Statements (Amendment)** -The amendment to IAS 1 requires the grouping of items within other comprehensive income that may be reclassified to profit or loss and those that will not be reclassified. The statement of comprehensive income in these condensed interim financial statements has been amended to reflect the presentation requirements under the amended IAS 1.

**IFRIC 20 – Production Stripping Costs** - IFRIC 20 Stripping Costs requires the capitalization and depreciation of stripping costs in the production phase if an entity can demonstrate that it is probable future economic benefits will be realized, the costs can be reliably measured and the entity can demonstrate that it is probable future economic benefits will be realized, the costs can be reliably measured and the entity can identify the component of the ore body for which access has been improved.

**Amendments to other standards** - In addition, there have been other amendments to existing standards, including IAS 19 *Post-Employment Benefits*, IAS 27 *Separate Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*. IAS 27 addresses accounting for subsidiaries, jointly controlled entities and associates in non-consolidated financial statements. IAS 28 has been amended to include joint ventures in its scope and to address the changes in IFRS 10 to IFRS 13.

## 4. MINERAL PROPERTY EXPLORATION INTERESTS (continued)

### a) Kena Property, Ymir, British Columbia, Canada

The Kena Property is comprised of the original Kena claims and additional properties under option. The properties are contiguous. Kena property is located near the community of Ymir in southeastern British Columbia.

#### **Kena Claims**

The Company holds 100% of the original Kena Property claims. The property is subject to a 3.0% net smelter returns royalty ("NSR") on gold and silver and 1.5% on other metals. The Company has the right to purchase 50.0% of the NSR for the greater of 7,000 ounces of gold or \$2,000,000 and must issue an additional 100,000 common shares on commencement of commercial production.

#### **Tough Nut Claim Group**

The Company holds 100% in three Tough Nut Claim Group claims, located on the north end of the Kena Property. The claims are subject to a 3.0% NSR from gold and silver. The Company has the right to purchase 66.67% of the NSR from the optionors for \$2,000,000 at any time prior to commencement of commercial production.

#### **Great Western Claim Group**

The Company holds 100% of the Great Western claim group, consisting of 3 claim units contiguous to the Kena property. Sultan must issue 200,000 common shares to the property vendors on receipt of a positive feasibility study. The property is subject to a 3.0% NSR from production of gold and silver and 1.5% from production of other metals. The Company has the right to purchase 66.67% of the NSR for \$1,000,000 on commencement of commercial production.

#### **Starlight Claim Group**

The Company holds 100% of 4 claim units, known as the Starlight Claim Group, consisting of 3 crown grants and one mineral claim contiguous with the Kena Property. The property is subject to a 1.0% NSR from production of gold and silver and other metals. The Company has the right to purchase the NSR for \$1,000,000 on commencement of commercial production.

#### **Daylight Claim Group**

The Company holds 87.5% of the Daylight Claim Group, consisting of 8 crown grants. To exercise the option, the Company made total cash payments of \$52,500 and issued 175,000 common shares. In addition, the agreement provides for the issuance of an additional 175,000 common shares to the optionors upon completion of a positive feasibility study recommending commercial production on the property. The properties are subject to royalties payable to the optionors of a 3.0% NSR from production of gold and silver and 1.5% NSR from the production of other metals. The Company has the right to reduce the NSR to 1.0% from the production of gold and silver and 0.5% from the production of other metals by a payment of \$1,000,000 on or prior to the commencement of commercial production.

On August 22, 2011, the Company entered into an agreement with Ms. Janet Lynn Wirth (the "Optionor") to option the remaining 12.5% interest in the Daylight Claim Group which was approved by the TSX-V on November 9, 2011. As per the agreement, the Company received the exclusive right and option to acquire the 12.5% interest in the property by making cash payments of \$7,500 (paid) and issuing 25,000 common shares to the Optionor over a one-year period (issued). The property is subject to royalties payable to the Optionor's 12.5% interest of a 3.0% NSR from production of gold and silver and 1.5% NSR from the production of other metals. The Company has the right to reduce the NSR to 1.0% from the production of gold and silver and 0.5% from the production of other metals by a payment of \$125,000 on or prior to the commencement of commercial production. The property is also subject to a share payment to the Optionor of 25,000 common shares upon completion of a positive feasibility study recommending commercial production on the property.

#### **Option Agreement with Altair Ventures Inc. (continued)**

After Altair has earned its 60% interest in the Project, Altair may elect to extend the option (the "First Option Extension Notice") and earn a 70% interest in the Project by completing a Feasibility Report within 72 months following the Effective Date. If Altair completes a Feasibility Report within 72 months of the Effective Date, then Altair may elect to earn an additional 5% interest in the Project (the "Second Option Extension Notice"), making Altair's aggregate interest in the Project 75% by electing to continue funding all of the Project development expenditures up to the achievement of Commercial Production from the Project.

In addition to the other payments provided for in the agreement, Altair will make bonus payments to Sultan as follows:

(A) If, at the end of 51 months following the Effective Date, Altair has elected not to give the First Option Extension Notice, and the Parties have then established that there are measured and indicated gold resources on the Project of not less than 2.0 million ounces at a 0.3 gram/tonne cut-off, then Altair will pay a one-time lump sum \$2.0 million Reported Resource Bonus to Sultan.

(B) If, Altair elects to give the First Option Extension Notice, then at the end of 76 months following the Effective Date Altair will pay a Reported Resource Bonus to Sultan equal to the greater of:

- (i) \$5.00 per ounce of probable and proven mineral reserves on the Project, determined at a 0.3 gram/tonne cut-off; or
- (ii) a one-time lump sum amount of \$2.0 million, provided that the Parties have by then established that there are measured and indicated gold resources on the Project of not less than 2.0 million ounces at a 0.3 gram/tonne cut-off.

As at June 30, 2013, \$610,000 in option payments from Altair were deducted from the acquisition and exploration costs for the Kena and Toughnut portions of the Company's Kena Property.

### b) Jersey and Emerald Properties, Salmo, British Columbia, Canada

The Company holds a 100% interest in the Jersey Claim Group located near Salmo, British Columbia. The property is subject to a 3.0% NSR that can be reduced to 1.5% by making payments of \$500,000 and issuing 50,000 common shares. Annual advance royalty payments of \$50,000 were to commence in October 2000. In October 2000, an amendment to the agreement extended the commencement of these royalty payments to 2004. In consideration for the extension, 200,000 common shares were issued to the royalty holders. In October 2004, the agreement was further amended to defer commencement of the royalty payments to October 2009, by the issuance of 200,000 common shares to the royalty holders.

In May 2009, the Company entered into an additional amendment to the option agreement to defer the commencement date of the annual royalty payments of \$50,000 due to commence in October 2009 by further four years, in exchange for a one-time payment of 250,000 common shares, and the right to collect mineral specimens from an exposure in the Jersey F Zone workings of the Jersey-Emerald property up to October 20, 2013, for the sole purpose of specimen collection.

Additional claims forming part of the properties include the Tungsten King Prospect, comprised of 17 crown-granted mineral claims. The Company acquired a 100% interest in these claims by issuing 100,000 shares of the Company. The Company also holds a 100% interest in the Truman Hill and Leroy North properties, additional properties in the Jersey and Emerald property group. The Truman Hill and Leroy north properties are subject to a NSR of 1.5% of which 50.0% can be purchased by issuing 25,000 shares of the Company. The Company also holds a 100% interest in the Summit Gold Property consisting of 4 mineral units and one reverted crown grant. The property is subject to a 2.0% NSR, which the Company has the right to purchase for \$500,000. The Company holds a 100% interest in the Jumbo 2 and Boncher crown granted mineral claims.

## 4. MINERAL PROPERTY EXPLORATION INTERESTS (continued)

### b) Jersey and Emerald Properties, Salmo, British Columbia, Canada (continued)

In June 2006, the Company entered into a purchase agreement to acquire 100% of the rights, title and interest in the surface rights over 28 crown granted mineral claims, four 2-post claims and 80 mineral units located near Salmo, British Columbia. In November 2006, the Company acquired the surface rights on a section of the Jersey Claim Group at a cost of \$100,000, inclusive of the initial option payment made on the property.

The Company completed a purchase agreement to acquire 100% of the rights, title and interest for the surface rights over 150 acres of land. Under the terms of the agreement, the Company made a cash payment of \$50,000 and issued 150,000 common shares to the sellers for the purchase of the property. The acquisition is included in mineral property costs in Jersey-Emerald.

The Company entered into a purchase agreement to acquire 100% of the rights, title and interest in the surface rights to 22 acres of land. Under the terms of the agreement, the Company made a cash payment of \$18,100 and issued 30,000 common shares to the sellers.

In June 2013 the Company entered into a non-binding proposal agreement with a third party to sell a 100% interest in the Jersey and Emerald Properties. Under the terms of the agreement the third party has a 90-day due diligence period (until September 2013). The Company received a \$50,000 deposit. 50% of the deposit is refundable should the third party terminate the agreement for reasonable cause and 100% of the deposit is refundable should the Company terminate the agreement.

### **Invincible Tungsten Mine**

The Company acquired a 100% interest in the now decommissioned 7.4-hectare Invincible Tungsten Mine located south of Salmo, British Columbia. Under the agreement, the Company paid \$3,000 and issued 9,000 common shares, subject to a 2.0% NSR, which the Company may, at its discretion, reduce to a 0.5% NSR by the payment of \$150,000 after the completion of a positive feasibility study and by the payment of advance royalties of \$3,000 per annum, commencing in 2010.

### **Victory Tungsten Property**

In May 2009, the Company acquired a 100% interest in the Victory Tungsten Property, consisting of six reverted crown grants, located approximately six kilometres south of Salmo, British Columbia, Canada. Under the terms of the agreement, the Company made a cash payment of \$12,000 and issued 200,000 common shares for the purchase of the property. The property is subject to a 2.0% NSR, payable to the optionor, which the Company has the right to reduce to 0.5% by making a one-time payment of \$150,000 at any time up to and including the commencement of commercial production. If at any time the optionor wishes to sell or assign its NSR, the optionor has agreed to give the Company a 60-day right of first purchase to acquire the NSR, provided that the optionor shall not thereafter offer its NSR to a third party on terms less favourable to the optionor than those offered to the Company.

### **Garnet Lead-Zinc Property**

In September 2009, the Company entered into an agreement to acquire a 100% interest in the Garnet Lead-Zinc Property, comprised of five mineral claims, Tenure Numbers 544860, 544861, 607011, 607013 and 607015, located approximately five kilometers south of Salmo, British Columbia, Canada. Under the terms of the agreement, the Company has an option to earn a 100% interest by making cash payments of \$75,000 (\$15,000 paid) and issuing 500,000 common shares (400,000 issued) to the optionors over four years. During the year ended December 31, 2012, the Company issued 100,000 common shares of the Company with a fair value of \$4,000 in relation to acquiring 100% interest in the Garnet Lead-Zinc Property. During the same year, the company deferred a payment of \$20,000 in cash to June 2013. The Company is required to make a final payment of \$40,000 and issue 100,000 shares to the property vendors by November 2013.

## 4. MINERAL PROPERTY EXPLORATION INTERESTS (continued)

### b) Jersey and Emerald Properties, Salmo, British Columbia, Canada (continued)

Upon making the cash payments and associated share issuances, the Company will acquire 100% right, title and interest in the property subject only to a 3.0% NSR, payable to the optionors and a further 200,000 common shares due on commencement of commercial production. The Company may, at its discretion, have the exclusive right to reduce the NSR to 1.0% by making a one-time payment of \$1,000,000 to the optionors exercisable within 90 days after commencement of commercial production. If at any time either of the optionors wishes to sell or assign this interest in the NSR in the property the optionors agree to give to the Company a 30-day right of first purchase to acquire such interest provided that the optionors shall not thereafter offer their NSR to a third party on terms more favorable than those offered to the Company.

#### **HB and HB2 Lead-Zinc Property**

In October 2009, the Company entered into an agreement to acquire a 100% interest in the HB Lead-Zinc Property, comprised of a 100-hectare mineral claim, Tenure Number 533727, located approximately eight kilometers southeast of Salmo, British Columbia, Canada. Under the terms of the agreement, the Company has an option to earn a 100% interest in the property by making cash payments of \$15,000 (paid) and issuing 100,000 common shares (issued) to the optionors over 12 months.

In March 2010, the Company entered into an agreement to acquire 100% of the rights and interest in the HB 2 Mineral Claim, Tenure 693188 located at UTM coordinates 5,443,100N and 485,600E near Salmo, British Columbia, Canada. Under the terms of the agreement, the Company acquired an undivided 100% interest in the property by making cash payments of \$10,000 and issuing 100,000 common shares.

#### **Aspen Lead-Zinc-Silver Property**

In November 2009, the Company entered into an agreement to acquire a 100% interest in the Aspen Lead-Zinc-Silver Property, comprised of seven mineral claims, Tenure Numbers 548440, 548464 – 548467, 604689 and 665745 located approximately six kilometers southeast of Salmo, British Columbia, Canada.

Under the terms of the agreement, the Company paid \$10,000 and issued 100,000 common shares to the optionors for the purchase of the property. Upon fulfilling the cash and share payments, the property will be subject only to a 1.0% NSR, payable to the optionors. The Company has the exclusive right to reduce the NSR to 0.5% by making a one-time payment of \$100,000 to the optionors at any time up to and including the commencement of commercial production.

### c) Stephens Lake Property, Manitoba, Canada

The Company is in a joint venture with ValGold Resources Ltd. and Cream Minerals Ltd. (the "Companies"). The Companies have 75% of the Trout Claim Group, which are internal to the claims forming the Stephens Lake Property. Under the terms of the Trout Claim Group agreement, the Companies each made cash payments of \$36,667 and issued 66,667 common shares to the optionor over a 36-month period from July 22, 2004. The Company has written off all exploration and carrying costs on the property to a nominal carrying value of \$1, as it has no exploration programs planned.

### d) Mineral Property Interests Commitments

To maintain its mineral property interests, the Company is required to make monthly cash payments of \$750 in fiscal 2013 for lease of surface property rights.

20,128,865	\$0.12	

There were no changes in warrants during the six month period ending June 30, 2013.

### (e) Shareholder rights plan

The Company's board of directors approved the adoption of a Shareholder Rights Plan (the "Rights Plan") on June 28, 2010, and the Rights Plan will expire on September 23, 2013.

The Shareholder Rights Plan has been designed to protect shareholders from unfair, abusive or coercive take-over strategies including the acquisition of control of the Company by a bidder in a transaction or series of transactions that may not treat all shareholders fairly nor afford all shareholders an equal opportunity to share in the premium paid upon an acquisition of control. The Shareholder Rights Plan was adopted to provide the Board with sufficient time, in the event of a public take-over bid or tender offer for the common shares, to pursue alternatives which could enhance shareholder value.

This Shareholder Rights Plan is not being adopted in response to any proposal to acquire control of the Company.

The Rights will not, however, be triggered by a "Permitted Bid", which is defined as a bid which is outstanding for a minimum of 60 days made to all of the shareholders of the Company for all of their common shares and, subject to other specified conditions, is accepted by a majority of independent shareholders (as detailed in the Rights Plan).

The Company has identified its directors and certain senior officers as its key management personnel and the compensation costs for key management personnel and companies related to them were recorded at their exchange amounts as agreed upon by transacting parties and on terms and conditions similar to non-related parties as follows:

- Management, administrative, geological and other services are provided by Quorum Management and Administrative Services Inc. ("Quorum") at market rates.
- Lang Mining Corporation ("Lang Mining") is a private company controlled by the chairman of the Company. Lang Mining receives a management fee of \$500 per month (2012 – \$2,500 per month) for the services of Frank A. Lang, an officer and director of the Company.
- The Company's investments include shares in a listed company with a common director.
- Balances payable to related parties are included in accounts payable on the statement of financial position. These amounts are non-interest bearing and are due on demand.
- Key management personnel compensation.

On June 17, 2013, the Company entered into a loan agreement with a director in the amount of \$15,000. As at June 30, 2013, \$15,000 (2012 - \$Nil) of the loan payable was outstanding and included in due to related party on the statement of financial position. ## 12. FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are measured on an ongoing basis at fair value or amortized cost. The disclosures in the notes to these financial statements describe how the categories of financial instruments are measured and how income and expenses, including fair value gains and losses, are recognized.

As at June 30, 2013, the classification of the financial instruments, as well as their carrying values and fair values, with comparative figures for December 31, 2012, are shown in the table below:

	June 30, 2013		December 31, 2012	
	Fair Value	Carrying Value	Fair Value	Carrying Value
<b>Financial assets</b>				
Cash	\$ 94,596	\$ 94,596	\$ -	\$ -
Short-term investments	30,000	30,000	363,000	363,000
Investments	63	63	70	70
Credit card deposit	17,250	17,250	17,250	17,250

Other deposits	50,000	50,000	-	-
Due to related party	15,000	15,000	-	-

The fair values of the Company's financial instruments measured at June 30, 2013, constitute Level 1 measurements for its cash, short-term investments and investments within the fair value hierarchy.

The Company recognized interest income during the six months ended June 30, 2013, totaling \$688. This is primarily interest income from the Company's short-term investments. This balance represents interest income from all sources.

### Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its obligations. The Company's maximum exposure to credit risk at the statement of financial position date under its financial instruments consists of \$30,000 (December 31, 2012 – \$363,000) in short-term investments.

Those financial assets that potentially subject the Company to credit risk are primarily its investment in marketable securities of publicly-traded companies and any receivables. The Company has increased its focus on credit risk given the impact of the current economic climate. The Company considers the risk of material loss to be significantly mitigated due to the financial strength of the major financial institutions where term deposits are held. The Company's maximum exposure to credit risk as at June 30, 2013, is the carrying value of its financial assets.

### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with financial liabilities. The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support normal operation requirements as well as the growth and development of its mineral property interests. The Company coordinates this planning and budgeting process with its financing activities through the capital management process described in Note 13, in normal circumstances. The Company's financial liabilities are comprised of its accounts payable and amounts due to related parties, the contractual maturities of which at June, 2013, are summarized as follows:

### Market risks

The significant market risks to which the Company is exposed include commodity price risk, interest rate risk and foreign exchange risk.

### Commodity price risk

The Company's ability to raise capital to fund exploration or evaluation activities is subject to risk associated with fluctuations in the market prices of gold, copper, zinc, lead, molybdenum and tungsten, and the outlook for these metals. The Company's ability to raise capital is affected by the prices of commodities that the Company is exploring for on its mineral property interests. The Company does not have any hedging or other derivative contracts respecting its operations.

Market prices for these metals have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, levels of worldwide production, short-term changes in supply and demand, industrial and retail demand, central bank lending, and forward sales by producers and speculators. The Company has elected not to actively manage its commodity price risk.

### Interest rate risk

The Company has no significant exposure at June 30, 2013, to interest rate risk through its financial instruments.

### Currency risk

Fluctuations in United States dollars would not significantly impact the operations and the values of its assets and shareholders' equity at this time. If the Company were to go into production, the Company would be subject to more foreign currency risk from fluctuations in the Canadian dollar relative to the United States dollar, due to metals prices and their denomination in United States dollars.

## 13. MANAGEMENT OF CAPITAL

The Company's objective in managing capital is to maintain adequate levels of funding to safeguard the Company's ability to continue as a going concern in order to pursue the development of its mineral property interests in British Columbia and to maintain a flexible capital structure which will optimize the costs of capital.

The Company endeavours to manage its capital structure in a manner that provides sufficient funding for operational activities through funds primarily secured through equity capital obtained in private placements. There can be no assurances that the Company will be able to continue raising capital in this manner.

## **13. MANAGEMENT OF CAPITAL** (continued)

Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will be able to continue this form of financing due to the current difficult conditions. The Company makes adjustments to its management of capital in the light of changes in economic conditions and the risk characteristics of its assets, seeking to limit shareholder dilution and optimize its costs of capital while maintaining an acceptable level of risk. The Company currently has sufficient funds for operations but must rely on equity financings, or forms of joint venture or other types of financing to continue exploration and development work and to meet its administrative overhead costs in future years (see Note 2b).

The Company's investment policy is to invest its cash in highly liquid short-term interest-bearing investments with maturities allowing the Company to withdraw funds at intervals needed for the expected timing of expenditures in its operations.
