1. CORPORATE INFORMATION AND NATURE OF OPERATIONS

Sultan Minerals Inc. (the "Company"), incorporated in British Columbia, is a public company listed on the TSX Venture Exchange ("TSX-V") and trades under the symbol SUL. The address of the Company's corporate office and its principal place of business is 1066 West Hastings Street, Suite 2000, Vancouver, British Columbia, Canada.

The Company is in the exploration stage and its principal business activity is the exploration and evaluation of mineral properties in Canada. The Company is in the process of exploring and evaluating its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

The amounts shown as mineral properties and related capitalized exploration costs represent costs net of recoveries to date, less amounts written off, and do not necessarily represent present or future values. Recoverability of the amounts shown for mineral properties is dependent upon the discovery of economically recoverable mineral reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain financing necessary to complete the exploration and development of its mineral property interests, and on future profitable production or proceeds from the disposition of the mineral property interests.

2. BASIS OF PREPARATION

a) Statement of Compliance

These condensed interim financial statements are prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting under International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board. These condensed interim financial statements follow the same accounting policies and methods of application as the Company's most recent annual financial statements, with the exception to any changes in accounting policies as described in Note 3. These condensed interim financial statements do not contain all the information required for full annual financial statements. Accordingly, these condensed interim financial statements should be read in conjunction with our most recent annual financial statements, which were prepared in accordance with IFRS as issued by the IASB.

The financial statements were authorized for issuance by the Board of Directors on May 22, 2015.

b) Going Concern

These financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for the next fiscal year. The Company has incurred losses since its inception and had an accumulated deficit of \$20,468,987 at March 31, 2015, which has been funded primarily by issuance of shares. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future. The Company has been successful in the past in raising funds for operations by issuing shares but there is no assurance that it will be able to continue to do so in the future. These factors comprise a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

3. RECENT ACCOUNTING PRONOUNCEMENTS

Accounting Standards and Amendments Issued But Not Yet Effective

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting periods beginning on or after January 1, 2015.

The following standard will be adopted by the Company effective January 1, 2017:

IFRS 15 - Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15 – Revenue from Contracts with Customers ("IFRS 15") which supersedes IAS 11 – Construction Contracts, IAS 18 – Revenue, IFRIC 13 – Customer Loyalty Programmes, IFRIC 15 – Agreements for the Construction of Real Estate, IFRIC 18 – Transfers of Assets from Customers, and SIC 31 – Revenue – Barter Transactions Involving Advertising Services. IFRS 15 establishes a comprehensive five-step framework for the timing and measurement of revenue recognition. The standard is effective for annual periods beginning on or after January 1, 2017.

The following standard will be adopted effective January 1, 2018:

IFRS 9 - Financial Instruments: Classification and Measurement

The IASB intends to replace IAS 39 – Financial Instruments: Recognition and Measurement in its entirety with IFRS 9 – Financial Instruments ("IFRS 9") which is intended to reduce the complexity in the classification and measurement of financial instruments. In February 2014, the IASB tentatively determined that the revised effective date for IFRS 9 would be January 1, 2018. The Company is currently evaluating the impact the final standard is expected to have on its financial statements.

Management is currently evaluating any impact that the above standards may have on the Company's financial statements and this assessment has not yet been finished.

Under the amended terms, Altair has an option to earn a 60% interest in 7,000 hectares of mineral claims that comprise the Kena and Toughnut portions of the Company's Kena Gold-Copper Property (the "Project") in British Columbia by making cumulative option payments totaling \$2,400,000 and issuing 3,666,667 shares of Altair. On December 5, 2014, the agreement with Altair was terminated by both parties due to difficult funding environment. As at December 31, 2014, the Company received \$1,057,500 in cash and in 2,000,000 shares in cumulative option payments from Altair, which were deducted from the acquisition and exploration costs for the Kena and Toughnut portions of the Company's Kena Property.

Annual advance royalty payments of \$50,000 were to commence in October 2000. The agreement was amended in October 2000, 2004, 2009, and May 2009 extending the commencement of these royalty payments to October 20, 2013.

e) Shareholder Rights Plan

The Company's Board of Directors adopted a Shareholder Rights Plan on September 23, 2013.

The Shareholder Rights Plan has been designed to protect shareholders from unfair, abusive or coercive take-over strategies including the acquisition of control of the Company by a bidder in a transaction or series of transactions that may not treat all shareholders fairly nor afford all shareholders an equal opportunity to share in the premium paid upon an acquisition of control. The Shareholder Rights Plan was adopted to provide the Board with sufficient time, in the event of a public take-over bid or tender offer for the common shares, to pursue alternatives which could enhance shareholder value.

This Shareholder Rights Plan is not being adopted in response to any proposal to acquire control of the Company.

The Rights will not, however, be triggered by a "Permitted Bid", which is defined as a bid which is outstanding for a minimum of 60 days made to all of the shareholders of the Company for all of their common shares and, subject to other specified conditions, is accepted by a majority of independent shareholders (as detailed in the Rights Plan).
